

**Product**

BSI Enclosures for Tub and Showers.

**Manufacturer**

Blake Solutions is headquartered in Memphis, TN, USA with manufacturing facilities in Asia.

**Product Composition**

BSI Enclosures use 6mm, 8mm, or 10mm thick, clear, tempered glass along with selected hardware. BSI Enclosure frames and tracks are made from aluminum. Most hinges and other hardware are made from stainless steel.

**Colors**

BSI Enclosure glass standard is clear. There are upgraded options for frosted or color tinted glass.

**Finish**

The metal hardware is available in the following finishes: Brushed Stainless, Polished Chrome and Matte Black.

**Maintenance**

BSI Enclosures should be cleaned as you would with any other glass product.

**Installation**

BSI provides turnkey installation services on all products. The BSI team will work with the general contractor to ensure proper framing and substrate is provided to receive this product.

**Warranty**

BSI Enclosure products offer a 1-year limited warranty.
